

Linking Leadership to Learning: A More Coordinated Approach

How well are principals being prepared and supported at a time when quality education is so important? Join your colleagues from P-12 education, higher education, business and government at one of the Leadership to Learning Regional Meetings to explore the roles and responsibilities of school leaders in the 21st century, the responsibility of the Commonwealth to prepare principals and the conditions necessary for principals to lead schools in meeting proficiency for all students by 2014.

There will also be discussions of the current Education Leadership Reform Task Force Recommendations on principal preparation and the Kentucky Cohesive Leadership Continuum for Principal Preparation.
